

MARGINS-specific fields in EndNote™ library

A number of fields common to the most common Reference Types were chosen to contain values specific to MARGINS.

The library records can be sorted on these fields.

The coding of some fields (for example, "FocusSite1:CentralAmerica") is to allow eventual transfer of the bibliographic database to a web-based application.

<u>Reference Type</u> <u>available field name</u>	<u>MARGINS field name</u>	<u>Example</u>
Call Number	Award # 1	OCE04-33609
Label	Award # 2	OCE04-32411
Research Notes	Award # 3	OCE04-39527
