NSF Award Abstract
- #0237131

NSF-MARGINS Seismogenic Zone Theoretical
Earth Institute

NSF Org OCE

Latest Amendment Date January 29, 2003

Award Number 0237131

Award Instrument Standard Grant

Program Manager Amos Winter
OCE DIVISION OF OCEAN
SCIENCES
GEO DIRECTORATE FOR
GEOSCIENCES

Start Date February 1, 2003

Expires January 31, 2005 (Estimated)

Expected Total Amount \$99987 (Estimated)

Investigator Garry D. Karner
garry@ldeo.columbia.edu
(Principal Investigator current)

Sponsor Columbia University
1210 Amsterdam Avenue; MC

NSF Program 1620 MARINE GEOLOGY AND
GEOPHYSICS

Field Application 0204000 Oceanography

Program Reference Code 0000,OTHR,

Abstract

This proposal requests support for an international conference on seismogenic zone studies that are being done under the auspices of the NSF MARGINS program. The last workshop on this topic was held in 1997. Since that time a number of studies have been conducted that have developed new and important information on the factors that influence the distribution, timing, magnitude, and mechanisms for earthquakes. The purpose of the workshop will be to foster exchange of information and results between researchers and students and provide a venue for developing plans for cross-disciplinary work in the future.
