

Table of Contents

- i. Foreword
- ii. Acronym List

- 1. Executive Summary by Geoff Abers, current MARGINS Chairman
- 2. Progress since the 2004 Mid-Term Review
- 3. Initiative Summaries
 - 3.1 RCL
 - 3.2 SEIZE
 - 3.3 S2S
 - 3.4 SubFac
- 4. Program Management
 - 4.1 Management Structures
 - 4.2 Office Activities
 - 4.3 Data Portal
- 5. Education and Outreach
 - 5.1 Summary
 - 5.2 Mini-lessons Program
 - 5.3 Distinguished Lectureship Program
 - 5.4 Post-Doctoral Fellowship Program
- 6. Other Impacts
 - 6.1 Building an Interdisciplinary Community
 - 6.2 Geohazards
 - 6.3 International Collaborations
 - 6.4 Relationship to Major NSF-Supported Facilities
 - 6.5 MARGINS and the National Computational Infrastructure
- 7. Future Directions and Motivation for a Successor Program
 - 7.1 Motivation for a Successor to MARGINS
 - 7.2 Opportunities for a Successor Program: Societal Relevance
 - 7.3 Implementation of a Successor Program
- 8. Overarching Themes for the Future
 - 8.1 Rheology and Deformation
 - 8.2 Fluids and Magmas
 - 8.3 Sediment Fluxes
 - 8.4 Example: Integrated Subduction Studies in CAM

- 9. Appendices
 - 9.1 Mini-White Papers
 - Rifting & Magmatism
 - Rifting, Sedimentation & Tectonics
 - Lithospheric Strain
 - Source-to-Sink Working Group Plan
 - Case for Passive Margins
 - 9.2 Event Response Policy
 - 9.3 MARGINS Data Policy
 - 9.4 MSC Membership, 1998-2008
 - 9.5 Student Prize Winners
 - 9.6 Letters from major international partners:
 - JAMSTEC
 - IFM-GEOMAR/SFB 574
 - OVSICORI-UNA
 - UCR/ICE
 - CICESE
 - NIWA

The following materials are bound separately:

- Research "Nuggets" (solicited from the community)
- Supplementary Documents
 1. List of Awards
 2. List of PIs
 3. Bibliography
 4. Tables of Contents of Books & Special Volumes
 5. Post-Doctoral Fellowship Program Details
 6. List of Sponsored Meetings
 7. NSF Program Solicitation for MARGINS
